WHAT DOES OUR “LOW PRICE PROMISE” LOOK LIKE?

“My local dealer wanted \$750-800, and were going to ship it to Chicago for repair. It would take 6-8 weeks. I took my BERNINA 880 here because it would no longer self-thread. **They fixed it in less than 2 weeks for only \$125.** I also found out that they are MUCH cheaper for supplies, material, thread, etc. than my local dealer. This is the place for all sewing machine repair, as well as a great place to shop. While talking to them, we inquired about some local restaurants. They steered us right. Food was great. It was well-worth the 2 hour drive. **They also have a GREAT assortment of new and used vacuums for sale.**”

A large 14.1" workspace handles everything including large home decor projects. The industry leading 11 5/8" x 18 1/4" embroidery frame is the **largest and most advanced** ever offered by Brother. Project stitches or designs onto an 8"x5" projection area, allowing for precise placement and editing.¹

Picture Play Embroidery Function

Using AI technology, the Picture Play Embroidery Function converts photos or images into thread art and displays it directly on-screen, giving the users the ability to effectively paint with thread for the ultimate work of art.

ISR Intelligent Stitch Regulator

Keeping all stitch lengths even, this feature adjusts the needle timing to match the actual speed of the fabric being fed into the machine. Includes three modes (Continuous, Intermittent, and Basting) and three free motion feet.

A Library of Built-in Designs

Browsing a vast collection of over 877 sewing stitches, 1,858 embroidery designs, 31 fonts, and over 217 Disney character patterns from the large 10.1" capacitive LCD touch screen is easy and comfortable.

✓ Buttonhole Preview

A first in the industry this innovative feature lets users preview the style, vertical or horizontal placement, and spacing of buttonholes through the powerful StitchVision projector.¹

✓ StitchVision Technology

Preview your stitches before you sew! Project a marker line, square, circle, or grid directly onto the fabric in one of 16 colors. This feature brings the reassurance of precision to every project.¹

Edge-to-Edge Quilt Feature

With easy-to-follow instructions and 15 patterns to choose from, this dynamic feature lets users finish their quilt directly on the Aveneer EV1. Even with our 7" x 12" or 10" x 10" magnetic hoops. A great substitute for a long arm!

Voice Guidance Feature

Gently guides users audibly through next steps of a project with a choice of voices in 6 languages.

Mobile Apps

App compatibility extends the creative possibilities of the EV1. With the Artspira Mobile App², access 10 bonus designs for the large hoop or use the drawing tool to create personalized quilt labels. NEW Jumbo Stitch

Beautiful, giant embroidery.
Made easy, fast and precise.

The BERNINA 990 features extraordinary innovations to make embroidering even more precise and easier than ever. Go beyond normal embroidery editing with the numerous on-screen editing features. With just the touch of a finger quickly edit and design your embroidery masterpiece visualized in the embroidery hoop. Easy, accurate and intuitive — the world is now your embroidery canvas.

Precisely position your embroidery on any project with the various placement options. The B 990 allows you to place a design down to a single stitch, even checking each stitch with the new BERNINA Pinpoint Laser. The new BERNINA Placement Scanner visualizes your hooped fabric directly on the screen as a background to preview design placement and colors. View the needle area on screen with the Camera and combine with the BERNINA Pinpoint Placement to accurately place your designs with ease, every time!

The new high-end Embroidery Module XL with BERNINA Smart Drive Technology (SDT) and the new Giant Hoop come standard with the B 990. The Giant Hoop expands your embroidery horizon with the extra-large space and ability to embroider a 16.1" x 12" area, including a full 12-inch square.

Save and organize your embroidery and stitch patterns directly on the machine or USB (type A or C) in the File Manager. Name saved files, create folders, cut, copy, paste and simply move entire folders of designs from the USB straight to your Personal Folder quickly and easily — just like magic!

The B 990 includes the NEW BERNINA Embroidery Module XL with SDT and extra-large embroidery area (410 x 305 mm, 16.1" x 12"), and the NEW Giant Hoop.

NEW: BERNINA Placement Scanner

Next generation embroidery with the B 990.

NEW BERNINA PLACEMENT SCANNER

Positioning of embroidery designs has never been easier. Scan to preview how your designs will look when stitched. Viewing the hooped fabric on the screen makes placement simple and provides a realistic preview for embroidery colors and sizing. Transfer the scanned background to the optional BERNINA Embroidery Software 9 DesignerPlus to digitize directly on your hooped project.

NEW CUSTOMIZABLE LETTERING

24 embroidery fonts with limitless resizing! Create embroidery lettering perfectly to fit your project with multiple lines, alignment and corrections to previously made text. Edit the stitch density and pull compensation, and transform the shape and spacing to get perfect results every time.

NEW ARRANGE FEATURES

Easily align, distribute, group/ungroup and move design stitchout order all while editing your designs. Match Start and Stop points of designs to create endless border and quilting designs without having to individually place multiple designs.

PINPOINT PLACEMENT WITH NEW 4-POINT

Perfect design placement starts with exact virtual positioning. Pinpoint Placement gives you total control of the stitching placement of your embroidery. With the new 4-Point Placement, simply define four points on the fabric in the hoop and the design is placed proportionally or morphed to fit the created boundary.

NEW WIFI CONNECTIVITY AND BERNINA STITCHOUT APP

WIFI allows you to transfer embroidery designs from your optional BERNINA Embroidery Software 9 DesignerPlus directly to your B 990, or the other way around. And thanks to the new BERNINA Stitchout App, the embroidery process can be monitored on your smartphone or tablet. The B 990 connects with the app allowing you to monitor the status of your embroidery stitchout from any room in your house. The app notifies you when the machine needs your direct attention, like thread color change, thread breakage or when the design is finished.

Quilt like a wizard.

The B 990 is your perfect quilting companion. With the large 14-inch throat space and the new BERNINA Integrated Stitch Regulator (BISR), quilting is comfortable and convenient. New features include the ability to adjust the minimum stitching speed and the adjustment of stitch lengths as stitches per inch (SPI).

Computerized Quilting with the SDT Embroidery Module empowers you to quilt like a pro. Unlimited scaling possibilities, the ability to modify the stitches per inch (SPI) and enhanced quilt securing enable you to achieve perfect results. New features let you further edit and customize quilting designs by visualizing the start and stop, flipping the start and stop position and matching the start and stop points. Use the over 200 built-in Customizable Quilt Designs, or expand your library. Computerized quilting is now in your total control.

The B 990 is a superior, all-in-one quilting machine. Extra-large space, precise stitch regulation and the ability to customize quilts of all sizes — you can feel confident creating quilt projects from the first to the last stitch!

NEW BERNINA INTEGRATED STITCH REGULATOR (BISR)

The new BERNINA Integrated Stitch Regulator is more than convenient when it comes to free-motion sewing and quilting. BERNINA Stitch Regulation is now possible with all quilting applications — including Ruler Work! The built-in stitch regulation works automatically with the 5.5 mm BISR Stitch Plate with Sensor and all BERNINA quilting presser feet and accessories. Simply attach the stitch plate, and the quilting foot of your choice to achieve perfect quilting stitches with the exact same length at variable sewing speeds.

NEW COMPUTERIZED QUILTING

The new Customizable Quilt Designs bring the functionality of professional longarm quilting to your embroidery machine. Unlimited scaling possibilities, the ability to modify the stitches per inch (SPI) and enhanced quilt securing functions enable you to achieve perfect computerized quilting on your embroidery machine. Formats compatible: BQM, HQF, PAT, PLI, QLI and TAP.

NEW START AND STOP EDITING

Push the boundaries of your computerized quilting by visualizing and adjusting the Start and Stop of Customizable Quilt Designs. Arrange designs to fit your quilt by flipping the position of the start and stop points, select multiple designs and match the start and stop points to create endless quilting designs with one touch — just like magic!

to fit the created boundary. Add margin to adjust the spacing between the edge of your quilt block and the computerized quilting for a professional finish.

NEW Help Center

More features you will love about the BERNINA 990.

EASE OF USE

The B 990 includes on-screen text to help you quickly find and understand editing features, saved and built-in stitch patterns and embroidery designs, and the machine settings. Use the search functionality in the Settings and Help Center to quickly find what you need when you need it.

TOTAL STITCH CONTROL

The B 990 provides an exclusive level of stitch control, up to 1,200 spm. Whether you are altering stitch length, stitch width or needle position, the machine will remember the details for you. Your personal settings can be saved for later use.

BERNINA DUAL FEED

The innovative BERNINA Dual Feed tames hard-to-manage fabrics providing superb fabric feeding. The B 990 allows for fine-tuning of BERNINA Dual Feed. Easy to engage when needed, it tucks completely out of the way when it's not required.

SEW WITH EVEN GREATER EASE

The B 990 accomplishes many tasks all by itself. The presser foot lowers automatically at the beginning of a seam. Needle threading is simple and fast with the Automatic Needle Threader. The thread is cut automatically when you reach the end of a seam, or when you wish to change colors while embroidering. Moreover, a practical extension table (12.5" x 25.9") significantly increases your work area and is included in the standard package.

BERNINA ADAPTIVE THREAD TENSION

The BERNINA Adaptive Thread Tension, a BERNINA innovation, provides ideal thread tension while sewing to achieve perfect stitch quality on both sides of the fabric. Once the tension is set according to the thread and fabric used, BERNINA Adaptive Thread Tension will constantly check the thread tension, adjusting it automatically when needed. The result is the finest stitching without pressing a button.

JUMBO BOBBIN

The front loading, easy access Jumbo Bobbin holds up to 70% more thread than standard bobbins, allowing you to sew and embroider longer without interruption.

NEW BERNINA STITCHPRECISION² TECHNOLOGY

The B 990 features the next generation BERNINA stitchprecision² Technology that makes your sewing, quilting and embroidery experience quieter, more precise and joyful.

NEW STITCH PLATE RECOGNITION

The B 990 automatically recognizes the stitch plate once it is attached to the machine. If the stitch plate is not compatible with the selected stitch pattern, needle or presser foot the machine will not sew as an additional security measure.
