📍 LOUISVILLE 📍 CLARKSVILLE 📍 INDIANAPOLIS

WHAT DOES OUR “LOW PRICE PROMISE” LOOK LIKE?

“My local dealer wanted \$750-800, and were going to ship it to Chicago for repair. It would take 6-8 weeks. I took my BERNINA 880 here because it would no longer self-thread. **They fixed it in less than 2 weeks for only \$125.** I also found out that they are MUCH cheaper for supplies, material, thread, etc. than my local dealer. This is the place for all sewing machine repair, as well as a great place to shop. While talking to them, we inquired about some local restaurants. They steered us right. Food was great. It was well-worth the 2 hour drive. **They also have a GREAT assortment of new and used vacuums for sale.**”

Positioning of embroidery designs has never been easier. Scan to preview how your designs will look when stitched. Viewing the hooped fabric on the screen makes placement simple and provides a realistic preview for embroidery colors and sizing. Transfer the scanned background to the optional BERNINA Embroidery Software 9 DesignerPlus to digitize directly on your hooped project.

NEW CUSTOMIZABLE LETTERING

24 embroidery fonts with limitless resizing! Create embroidery lettering perfectly to fit your project with multiple lines, alignment and corrections to previously made text. Edit the stitch density and pull compensation, and transform the shape and spacing to get perfect results every time.

NEW ARRANGE FEATURES

Easily align, distribute, group/ungroup and move design stitchout order all while editing your designs. Match Start and Stop points of designs to create endless border and quilting designs without having to individually place multiple designs.

PINPOINT PLACEMENT WITH NEW 4-POINT

Perfect design placement starts with exact virtual positioning. Pinpoint Placement gives you total control of the stitching placement of your embroidery. With the new 4-Point Placement, simply define four points on the fabric in the hoop and the design is placed proportionally or morphed to fit the created boundary.

NEW WIFI CONNECTIVITY AND BERNINA STITCHOUT APP

WiFi allows you to transfer embroidery designs from your optional BERNINA Embroidery Software 9 DesignerPlus directly to your B 990, or the other way around. And thanks to the new BERNINA Stitchout App, the embroidery process can be monitored on your smartphone or tablet. The B 990 connects with the app allowing you to monitor the status of your embroidery stitchout from any room in your house. The app notifies you when the machine needs your direct attention, like thread color change, thread breakage or when the design is finished.

Quilt like a wizard.

The B 990 is your perfect quilting companion. With the large 14-inch throat space and the new BERNINA Integrated Stitch Regulator (BISR), quilting is comfortable and convenient. New features include the ability to adjust the minimum stitching speed and the adjustment of stitch lengths as stitches per inch (SPI).

Computerized Quilting with the SDT Embroidery Module empowers you to quilt like a pro. Unlimited scaling possibilities, the ability to modify the stitches per inch (SPI) and enhanced quilt securing enable you to achieve perfect results. New features let you further edit and customize quilting designs by visualizing the start and stop, flipping the start and stop position and matching the start and stop points. Use the over 200 built-in Customizable Quilt Designs, or expand your library. Computerized quilting is now in your total control.

The B 990 is a superior, all-in-one quilting machine. Extra-large space, precise stitch regulation and the ability to customize quilts of all sizes — you can feel confident creating quilt projects from the first to the last stitch!

NEW BERNINA INTEGRATED STITCH REGULATOR (BISR)

The new BERNINA Integrated Stitch Regulator is more than convenient when it comes to free-motion sewing and quilting. BERNINA Stitch Regulation is now possible with all quilting applications — including Ruler Work! The built-in stitch regulation works automatically with the 5.5 mm BISR Stitch Plate with Sensor and all BERNINA quilting presser feet and accessories. Simply attach the stitch plate, and the quilting foot of your choice to achieve perfect quilting stitches with the exact same length at variable sewing speeds.

NEW COMPUTERIZED QUILTING

The new Customizable Quilt Designs bring the functionality of professional longarm quilting to your embroidery machine. Unlimited scaling possibilities, the ability to modify the stitches per inch (SPI) and enhanced quilt securing functions enable you to achieve perfect computerized quilting on your embroidery machine. Formats compatible: BQM, HQF, PAT, PLI, QLI and TAP.

NEW START AND STOP EDITING

Push the boundaries of your computerized quilting by visualizing and adjusting the Start and Stop of Customizable Quilt Designs. Arrange designs to fit your quilt by flipping the position of the start and stop points, select multiple designs and match the start and stop points to create endless quilting designs with one touch — just like magic!

NEW 4-POINT PLACEMENT

Computerized quilting is easy with 4-Point Placement. Simply define four points on the fabric in the hoop and the design is placed proportionally or can be morphed

to fit the created boundary. Add margin to adjust the spacing between the edge of your quilt block and the computerized quilting for a professional finish.

NEW GIANT HOOP WITH 12" SQUARE EMBROIDERY AREA

The new Giant Hoop is capable of stitching a full 12-inch square within the 16.1" x 12" embroidery field. Perfect for large quilt blocks! Easily hoop and re-hoop your quilt projects with the ergonomic twist lock closure and quick and easy markings on the inner hoop and template to align a 12-inch square. Effortless quilting even on the largest quilts.

NEW Help Center

More features you will love about the BERNINA 990.

EASE OF USE

The B 990 includes on-screen text to help you quickly find and understand editing features, saved and built-in stitch patterns and embroidery designs, and the machine settings. Use the search functionality in the Settings and Help Center to quickly find what you need when you need it.

TOTAL STITCH CONTROL

The B 990 provides an exclusive level of stitch control, up to 1,200 spm. Whether you are altering stitch length, stitch width or needle position, the machine will remember the details for you. Your personal settings can be saved for later use.

BERNINA DUAL FEED

The innovative BERNINA Dual Feed tames hard-to-manage fabrics providing superb fabric feeding. The B 990 allows for fine-tuning of BERNINA Dual Feed. Easy to engage when needed, it tucks completely out of the way when it's not required.

SEW WITH EVEN GREATER EASE

The B 990 accomplishes many tasks all by itself. The presser foot lowers automatically at the beginning of a seam. Needle threading is simple and fast with the Automatic Needle Threader. The thread is cut automatically when you reach the end of a seam, or when you wish to change colors while embroidering. Moreover, a practical extension table (12.5" x 25.9") significantly increases your work area and is included in the standard package.

BERNINA ADAPTIVE THREAD TENSION

The BERNINA Adaptive Thread Tension, a BERNINA innovation, provides ideal thread tension while sewing to achieve perfect stitch quality on both sides of the fabric. Once the tension is set according to the thread and fabric used, BERNINA Adaptive Thread Tension will constantly check the thread tension, adjusting it automatically when needed. The result is the finest stitching without pressing a button.

JUMBO BOBBIN

The front loading, easy access Jumbo Bobbin holds up to 70% more thread than standard bobbins, allowing you to sew and embroider longer without interruption.

NEW BERNINA STITCHPRECISION² TECHNOLOGY

The B 990 features the next generation BERNINA stitchprecision² Technology that makes your sewing, quilting and embroidery experience quieter, more precise and joyful.

NEW STITCH PLATE RECOGNITION

The B 990 automatically recognizes the stitch plate once it is attached to the machine. If the stitch plate is not compatible with the selected stitch pattern, needle or presser foot the machine will not sew as an additional security measure.
