Bernina 880 Plus

The Bernina B880 Plus in the ultimate in sewing, embroidery, and quilting machine. The B880 Plus includes an integrated Stitch Library offering over 1,764 stitches. Each is clearly categorized and stitches are easily retrieved, so you can find any of the 12 font styles and 460 high-quality embroidery designs you need. Enjoy pinpoint placement, enhanced editing functions, total embroidery stitch control, the Bernina Stitch Regulator, and the precise BERNINA Hook that sews high-precision stitches up to 9 mm in width with speeds up to 1,000 stitches per minute.

The extra-large bobbin holds 70% more thread than standard bobbins, so you can keep sewing for longer with the 13-inch free arm and 10 inches of space to the right of the needle. Automatic features included are thread cutting at the end of the seam, semi-auto threading, and auto-lowering of presser foot. Additionally, you'll have access to on-screen support, which provides sewing tips and time-saving advice for the ultimate user experience.

The model we have at Sewing and Vacuum Authority and Quilt Quarters comes with the a power cord, foot pedal, and zig-zag foot only. However, the built-in features of machine are far more expansive. It has 32 available stitches that will serve needs for basic sewing, decorative sewing, and most others in between. It has one automatic four step buttonhole and includes a free arm for more customization in difficult-to-reach areas of fabric. It is built with Singer's heavy-duty metal body, so you can count on a durable, reliable machine, despite it being pre-owned. There is an easy-to-reach reverse lever for reverse sewing, and presser feet can be swapped out with a snap. In addition, the 1748 has a self-adjusting tensioning system for your selected stitch type, a front-loading bobbin for easy winding and insertion, and an easily adjusted stitch width function for your convenience.

Singer 5825C

The Singer 5825C is a mechanical sewing machine designed for easy everyday sewing, clothing repairs, alterations, and creative projects. It features practical stitch options and straightforward controls, which make it a great starter machine. Its free-arm design makes it easier to sew smaller items and areas such as sleeves, cuffs, and pant legs, and the reverse stitching function provides a clean finish for your hems. It has an adjustable stitch length and width, as well as adjustable thread tension based on the stitch you select. The mechanical controls make it easy to control the machine and take away any need to have to mess with a screen or online settings. This machine is totally set to your preferences, and a great machine for clothing repairs and creation, alterations, and general creative projects that don't need the bells and whistles of a high-tech sewing machine.
